<p>Demonstração da coerência entre as metodologias de ensino com os objetivos de aprendizagem</p>	<p>a) Coherence between Interactive Live Sessions (Zoom role-plays, discussions, and practice activities) and the learning objectives: This methodology directly supports the objective of enhancing participants' conversational skills for diverse scenarios abroad. Role-plays and discussions provide real-time practice, allowing students to engage in meaningful communication. Additionally, interactive sessions help build confidence and cultural awareness by simulating real-world conversations with immediate feedback.</p> <p>b) Coherence between Supplemental Materials (Videos, quizzes, and vocabulary lists) and the learning objectives: These resources reinforce learning by providing structured exposure to language patterns and vocabulary necessary for effective communication. They support students in acquiring practical tools for academic, social, and everyday interactions by allowing self-paced learning and review, which strengthens retention and application.</p> <p>c) Coherence between Practical Application (Real-life scenarios and simulation exercises) and the learning objectives: This methodology aligns perfectly with all the learning objectives. By immersing students in simulated real-world situations, it enhances conversational skills, builds confidence, and fosters cultural awareness. The emphasis on practical use ensures that students develop the necessary linguistic and social skills to navigate English-speaking environments effectively.</p>
